V. RECORDS

A. Individual Personal Requirements

Any person subject to these rules and regulations may be required to supply any information and documents that the GHRA may determine to be necessary with respect to the registration of horses or the transfer of registration certificates.

1. Record Keeping

Complete and accurate records of breeding (hand and pasture breeding), foaling, etc., must be kept in permanent form by owner of horses, and these records must be made available to the GHRA as may be determined necessary with respect to the registration of horses or the transfer of registration certificates.

2. Failure to Keep or Show Records

If the GHRA determines that no systematic and satisfactory plan for keeping records is in use, or if no records are made available upon the GHRA's written request for compliance, the GHRA may, for up to 45 days, temporarily refuse registration or transfer of registration certificates

from such owner until the records are complete. If during that 45-day period the owner fails to demonstrate compliance with the GHRA's request to maintain a systematic and satisfactory set of records, the GHRA may proceed against the owner under the rules of Disciplinary Procedures.

3. Annual Stallion Reports

Stallion breeding reports shall be submitted to the GHRA office by December 31st of each breeding year. (A grace period of 15 days will be allowed, must be postmarked the 15th of January or before). If stallion is co-owned with "and", signatures of all owners are required to sign the stallion report.

a) If submitted as a late report (after January 15th) a late fee (See fee schedule) will apply and must be paid before the foaling date or DNA-testing for parent qualification of the foal will be required for the foal to carry the parentage on his registration certificate.

b) If a report is not submitted and foal is born a report must be filed, with the late filing fees and the foal parent qualified by DNA-testing the foal, sire and dam.

c) If a breeding stallion dies during any current breeding year his stallion report is due within 30 days following his death.

d) This report shall include all mares owned by the owner of the stallion as well as mares owned by other parties. All mares must be listed with their respective registries and registry numbers whether GHRA registered or not.

e) Mares bred with cooled transported semen or frozen semen must be designated on the report. This report shall be made on a form provided free of charge by GHRA

4. Corrections/Additions to Stallion Report

a) Stallion breeding reports which require a correction or an addition will result in a \$25.00 fee per horse for each mare omitted or \$25.00 correction fee for each incorrect number or name on report.

b) Corrections/additions must be submitted and paid before foaling date of resulting foal or parentage qualification will be required to verify the correction/addition in order to register the foal.

c) In addition, the registered owner (or authorized agent) will be required to submit the necessary blood work and/or DNA Testing, at said owners or agent's expense to verify the correction or addition.

d) Failure to remit stallion reports will also be handled according to the above procedure

5. Sale of Stallion

Within 30 days after a stallion is sold, the previous owner or registered agent, must file a stallion breeding report with the GHRA.

6. Service/Breeders Certificate

A service/breeders certificate signed by the owner of the stallion (and the owner of the mare at time of breeding if not same owner at the time of foaling) must be submitted with the application of registration of a foal. If stallion is co-owned with “and”, signatures of all owners are required to sign the service/breeders certificate. The dates must correspond with the stallion breeding report. This is not required if the owner of the sire and dam at the time of breeding is the same as at the time of foaling. A service/breeders certificate with alterations or changes will not be accepted

B. Right To Refuse, Deny, Or Cancel Registration

The GHRA shall accept only Gypsy horses that qualify for registration and deny requests for registration, transfer, or cancel existing registration certificates under the bylaws, rules and regulations of the GHRA. Should the GHRA take any such action, the GHRA will send written notice to the person(s) involved, who may then request a Hearing to determine the validity of action taken.

1. Request for Hearing
The request must: Be in writing, state all grounds and reasons upon which the applicant relies for determining valid registration and be received by the GHRA within 30 days after receipt of the Notice of Denial or Cancellation.
2. Burden of Proof
If a request for a Hearing is received in accordance with this rule, a Hearing will be held as provided in rules HEARING (A)-(G). In all disciplinary matters the burden of proof lies with the charged person. The applicant or person(s) seeking registration or to retain or change status of registration of a horse will have the burden of proving that the horse qualifies for registration in the GHRA. In all proceedings concerned with or affecting the registration and records of the GHRA, the burden of resolving any doubt as to the true parentage or identification of a horse shall be upon the applicant, owner, lessee, or other member(s) involved. If no request for a Hearing is received within the required time period the decision of the GHRA stands as final.
3. DNA Testing
DNA testing may be required at the discretion of the Hearing Board to resolve any question or doubt as to the parentage or identification of the horse. In consideration of such tests and other information as may be available, the Hearing Board may authorize such corrections of the records of the GHRA. The recorded owner of a horse must agree to permit such tests which will be at the expense of the owner. Refusal by an owner to

permit DNA testing under this rule may result in cancellation of registration and penalties under rules of Disciplinary Procedures.

4. DNA Laboratory Reports
DNA samples and results are the property of GHRA. GHRA will not require owner permission to parent qualify a horse.

C. Procedure For Denial or Cancellation Of Registration

The GHRA may propose to deny or cancel the registration of a horse if it finds that there are reasonable grounds to believe:

1. That the horse does not meet the requirements for registration or:
2. That the horse identified as the subject of registration is not the same horse the certificate is issued to or requested for or:
3. That any information of the application or registration certificate is determined false or incorrect.

The GHRA will advise the recorded owner in writing of any proposal to deny or cancel the registration and the reason supporting this proposal. The recorded owner shall have 30 days to provide the GHRA's Registrar with information preventing the denial or cancellation. If such information does not resolve the difficulty, the decision of the Registrar stands and the recorded owner may then request a Hearing as per rule (B) Right to Refuse, Deny, or Cancel Registrant (1) Request for Hearing.

D. Publication

Notice of any cancellation of certificates of registration may be published in the official publication of the GHRA.

After the DNA testing and Certificate of Veterinary Inspection of Stallion results or on file with GHRA, the stallion is not required to be tested again. However, the owner will be offered permanent registration papers if the horse is gelded.~~

b) The name of the horse may be distinguished by a prefix or suffix, which is not a duplication of or deceptively similar to a prefix and suffix which has been previously reserved by written request and payment of the required fee to the GHRA. The filing of such a reservation does not override any rights that another member or non-member may have to the exclusive use of a prefix, suffix or horse name pursuant to federal trademark or trade name laws or other laws similar thereto including, but not limited to, common law surrounding rights in trademarks and trade names.

c) The Board of Directors of the GHRA may adopt procedures and guideline for the implementation of the prefix and suffix reservation process and for determining when and if a prefix and suffix or horse name is deceptively similar to a previously recorded horse name or previously reserved prefix and suffix.

d) Names of horses may not be changed after registration, however if DNA testing results in a change of sire or dam and the registered horse's name includes the name of either sire or dam, only that portion of the name must be deleted or changed.

e) When it is determined by the Registrar that a name is offensive to any race, creed, color or national origin, the Registrar has the right to refuse the registration name.

f) The name of a horse may not be changed after registration unless it is offensive to any race, creed, color or national origin, in which case the Registrar has the right to require a change in the offensive part of the name only.

g) If a horse is registered with another Registry with DNA on file with the University of Kentucky, the horse's name must remain the same. If the owner prefers to use a different name, a new DNA must be taken so that the new name on file with the GHRA and the University of Kentucky match.

G. Certificates

The GHRA shall issue a Certificate of Registration based upon information submitted on the proper form attesting to the qualification for registration.

1. **Transfer Without Signature of Recorded Owner**
Whenever legal title to a registered horse passes to another by reason of death of the recorded owner, by reasons of foreclosure of any liens, or by any order or decree of court, or otherwise by operation of law, the GHRA may transfer the registration of such horse to the new owner upon:

The notice shall provide the effective date of the lease, the name and registration number of the horse, and may provide a termination date. Otherwise it may be terminated by written notice, giving termination date signed by both lessor and lessee; or by a properly executed transfer report which shows a change of ownership from lessor to lessee and which is signed by lessor. No additional fee shall be charged for termination, whether automatic or by subsequent notice thereof. The effective date will be determined by the date of postmark or date hand delivered to the GHRA office. A backdated lease will not be accepted.

1. Recognition

The GHRA will recognize only one lease per horse. Multiple leases will only be allowed if they are members of the same household for show purposes only.

2. Recordation

Recording of Notice of Lease with the GHRA authorizes a lessee to execute all documents pertaining to the recognized activities of breeding or showing. Any limitation on use of the horse is solely the responsibility of the lessor.

3. Transfer of Ownership

During the effective term of the lease, the GHRA will not record subsequent changes in ownership until the lease is terminated; and only the lessee (or authorized agent) is authorized to sign breeders' certificate, stallion breeding reports or registration applications pertaining to the leased horse.

A. Forty-two Day Rule

After a mare has been exposed or bred to one stallion, either by hand or pasture breeding, at least forty two (42) days must elapse before exposing the mare to a different stallion.

B. Pasture Breeding

Only one stallion may run with a mare or group of mares in a pasture, and they must be enclosed by permanent fencing maintained in such manner that no other stallion can cover a mare in said group.

C. Artificial Insemination, Cooled Transported And Frozen Semen

1. Frozen semen may be used beyond a stallion's death only if the stallion is registered with the GHRA prior to his death, Breeding Stallion Qualification Certificate and his DNA must be on file with the GHRA.

2. If cooled semen or frozen semen is to be transported for the purpose of breeding a mare or mares at any place other than the premises of collection the stallion owner or lessee and mare owner must both complete their respective portions of the collection/insemination certificate which must accompany the shipment of cooled semen or frozen semen to the mare owner. See (4) below.

3. A collection/inseminated certificate form will be provided by GHRA, at no charge, to the stallion owner or agent. The collection/insemination certificate must be completed in part by the stallion owner/lessee and accompany the semen transported to the mare owner or agent. This certificate is not to be confused with a breeder's certificate and cannot be used as such.

4. Upon receiving the semen and the collection/insemination certificate from the stallion owner, the owner or lessee or veterinarian in charge of the mare for which semen is received shall complete and sign the certificate, including the date of insemination. This certificate (not a breeder's certificate) shall be sent in time to be received by the GHRA office by the end of the year. Any subsequent breeding in same breeding season will require another certificate
5. The stallion owner or lessee shall clearly distinguish those mares bred using cooled transported semen or frozen semen and those mares bred immediately following collection, hand bred or pasture bred on the Stallion Breeding Report.
6. Any foal resulting from the use of cooled transported semen or frozen semen must have its pedigree verified by genetic testing, including sire, dam and foal and/or by other genetic testing as GHRA deems necessary, all expense of which shall be the registration applicant's. In addition, the Executive Board has the authority to require parentage verification by genetic testing of all foals born on any premises receiving transported semen.
7. Any foal resulting from the use of cooled transported semen or frozen semen shall not be registered without a transported semen or frozen semen breeders certificate. Such breeder's certificates are available at no charge to the stallion owners, upon request.
8. The Executive Board has the authority to send representatives to inspect the premises and practices of any person or breeding establishment using artificial insemination and no person shall refuse, upon reasonable request, full access to said premises.

D. Embryo/Oocyte Transfer

1. A horse foaled by a mare which is not its genetic dam, but transferred to her by embryo/oocyte transfer technique shall not be eligible for registration unless:
 - a) Prior to the intended collection of the fertilized egg, record owner or lessee has notified GHRA in writing of its intention to attempt an embryo/oocyte transfer and has paid the proper fee as per the fee schedule. For mare enrollments received after collection of the embryo/oocyte, but prior to foaling, a late fee will be assessed, in addition to fees required by the fee schedule. For mare enrollments received after foaling, a late fee will be assessed, in addition to fees required by the fee schedule. This enrollment must be made each year that a transfer is to be performed, and once made, the fee is not refundable, nor can any substitution be made.
 - b) Has its pedigree verified through genetic testing of foal, sire and donor mare; and by such other testing as GHRA deems necessary to verify the validity of the genetic testing, all expense of which shall be the registration applicant's.

2. The enrollment notice must be sent by certified mail, return receipt requested, to preserve for the recorded owner or lessee of the donor mare, the only acceptable proof to GHRA of timely compliance, if such proof is requested.
3. In accordance with GHRA approved procedures an embryo/oocyte may be transported from the premises where the donor mare was located at the time of its removal from her, for use in a recipient mare at another location. To be eligible for such transportation, notice of intention to transport the embryo/oocyte shall be given in conjunction with the advance notice of intended collection specified above.
4. If a mare is designated with GHRA for embryo/oocyte transfer, but the procedure is not attempted regarding the mare in the designated year, to avoid necessity of genetic testing for parentage verification, GHRA must be notified in writing by December 31 of the designated year that the owner has elected not to attempt embryo/oocyte transfer. Without such notice, a foal produced the following year by designated mare is not eligible for registration without genetic testing for parentage verification.
5. When a foal is produced by embryo/oocyte transfer, such fact will be listed on its registration certificate.
6. GHRA may inspect the premises and practices of any party using or intending to use embryo/oocyte transfer procedures.
7. The burden of verifying true parentage is the registration applicant's and any question of parentage shall be resolved against the registration of a horse carried by a recipient mare through embryo/oocyte transfer.

- C. The member associations of the Gypsy Horse Society determine together the Breeding Standard in all countries in which there are Gypsy Horses. The member associations of the Gypsy Horse Societies will have a system of assessing specific conformation and traits of individual horses according to a numeric scale known as the Premium Evaluation System.
- D. These evaluations are given for the quality of the head, neck and shoulders, back, legs, joints, overall proportions, hooves, mane & tail, movement at a walk and movement at a trot. These scores are then averaged into a single conformation score.
- E. The conformation part of the evaluation consists of the Inspectors examining the physical horse and asking that the horse be walked and trotted along a pattern straight away for 50' then turn at a 45 degree angle to the left for 50' then stopped, reversed and then backed along the same track to the inspectors. Additional movement required at the Inspector's discretion must be fulfilled.
